

model MSG

Alvarado pedestrian security gates are engineered for safe and reliable operation. Pedestrian gates are used for disabled or special patron access, parcel delivery or large group access, and are often used in conjunction with turnstiles. Electrically controlled models work with nearly any access control system. All of our gates ship fully assembled.

Alvarado's MSG full height security gates look and function much better than a chain link or one off fabricated gate. With multiple models to choose from, the MSG line can meet almost any application or requirement.

COMMON APPLICATIONS

- Perimeter Control/Fence Line Security
- Loss Prevention
- Employee and Visitor Access Control

Why Alvarado?

Alvarado is the leading manufacturer of pedestrian gates. Since its founding in 1956, Alvarado equipment has been installed in thousands of locations throughout the world.

Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world's most respected companies use our products again and again.

KEY FEATURES

Access Control Integration
(electric models)

Hydraulic Self Closing

Versatile Product Line

Durable Finishes

48" door Width

Ships Fully Assembled

BENEFITS

Works with any access control or card reader without added relays, electronics or programming for an **effortless integration**.

Self-adjusting tension eliminates slamming and smoothly closes the door, **increasing user safety and extending equipment life**.

The MSG has five different models to choose from **engineered to fit nearly any application**.

Stainless steel, galvanized and powder coated over galvanized finishes are **excellent for outdoor applications**.

Wide door width produces an **entryway for special needs patrons, parcels and more**.

All MSGs are shipped fully assembled, and ready to install.

AVAILABLE MODELS

Various manual and electric lock versions available.

OPTIONS

Many options and a selection of materials and finishes are available.

COMPLEMENTARY PRODUCTS

MST full height turnstiles often accompany pedestrian security gates to facilitate delivery of material or bulky items.

RESOURCES

Alvarado's knowledgeable staff understands that many customers do not deal with pedestrian gates on a regular basis. We offer expert assistance and technical expertise to ensure the best solution is selected for your facility.
